SUSTAINABILITY (SUS)

SUS 4060 (s) Sustainability Challenge (3 credits, max 6)
Joint-listed with SUS 5060
This course tasks an interdisciplinary cohort of students with bringing together the knowledge and methods of their home disciplines to solve a local sustainability issue. Work includes meeting with community members affiliated with the issue, pitching solution ideas to a team of experts, and publishing a group e-portfolio documenting the issue and your proposed solution. Additional work required for graduate credit. Typically Offered: Varies.
