The Dean of Students Office provides a variety of services that focus on assisting students. These programs and services include advising students in living groups, students living off campus, ethnic minority students, and veterans; assisting families and students who experience crisis situations that disrupt normal academic activities; and coordinating the new student orientation, the Child Care Center, the National Student Exchange Program, student leadership activities, fraternity/sorority programs, and student discipline/conduct activities.

Staff members are trained to work with individuals and groups of students or to serve as a liaison between students, departments, and agencies on and off campus.

All these services and programs are supportive of the academic mission of the University of Idaho and are an integral part of the student's total education.
